
Job Role: **Gold Card Electrician**

Job Type: **Full-Time**

Coverage Area: **London & Surrounding Areas (further travel required on occasion)**

Salary: **Competitive**

About the Role

We are looking for a skilled and reliable Electrician to join our growing team. This is a hands-on role involving installation, maintenance, and repair of electrical systems across a range of projects. The ideal candidate will be proactive, safety-conscious, and capable of working both independently and as part of a team.

Key Responsibilities

- Install, maintain, and repair electrical systems and equipment
- Carry out **planned preventative maintenance** as well as reactive repairs
- Diagnose faults and repair defective electrical components efficiently
- Read and interpret electrical schematics and technical drawings
- Install wiring, cabling, and low voltage systems
- Inspect installations and materials to ensure compliance with required standards
- Source or request materials and parts required for jobs
- Maintain accurate job records, reports, and certification
- Ensure full compliance with **health & safety regulations**, including hazard identification and reporting
- Work in line with scheduled maintenance programmes
- Assist in the training and mentoring of junior staff or apprentices where required
- Use basic IT systems for reporting and communication
- Work independently or collaboratively with minimal supervision
- Carry out additional duties as required to support business operations

Challenge House, Sherwood Drive,
Milton Keynes, MK3 6DP

T: 01908 736 072
E: info@calconprojectslimited.com
W: www.calconprojectslimited.com

- NVQ Level 3 in Electrical Installation (or equivalent)
- 18th Edition Wiring Regulations (BS 7671)
- ECS Gold Card
- AM2 certification (preferred)
- At least 5 years' experience in a similar role
- Ability to read and understand technical drawings and schematics
- Good understanding of health & safety practices
- Full Clean UK driving licence

Desirable Skills

- Strong troubleshooting and diagnostic skills
- Good communication and customer service skills
- Experience in preventative maintenance programmes
- Knowledge of renewable technologies (e.g. solar PV, EV charging)
- Previous experience working with SimPRO system
- Previous experience with creating certification through NICEIC portal

What We Offer

- Competitive salary (dependent on experience)
- Company vehicle and tools (if applicable)
- Overtime opportunities
- Ongoing training and further development (potential)
- Supportive team environment
- Pension and additional benefits
- Fuel Card
- 25 Days Holiday (+ bank holidays)
